Level Funded Stop Loss

We continually search for fresh approaches, respond proactively to market changes, and bring additional flexibility to our products. Our clients have benefited from our expertise for over 45 years, and we are happy to announce that Tokio Marine HCC- Stop Loss Group has entered the Level Funded Stop Loss Market. Level Funded Stop Loss allows the employer to establish a fixed monthly budget for claims coverage within its self-funded health plan. In an effort to meet every client's unique benefit needs, this self-funded stop loss product provides an ideal combination of predictability, savings, flexibility, and control. Our purpose is to be prepared for what tomorrow brings. Contact us for all your medical stop loss, captive, Taft-Hartley, organ transplant, and Level Funded Stop Loss needs.

THE ANTIDOTE TO HIGH PHARMACY COSTS

Pharmacy Cost Advocacy Cost Containment Solutions (PACCS)

Our innovative pharmacy advocacy program saves employers up to **75%** on specialty drug costs, and eliminates/reduces copays for members. In-house pharmacy advocates work directly with members to ensure they stay on the right medication journey, source affordable medications, and find available alternate funding sources. PACCS works in conjunction with most PBM's, with any TPA and is available to start at any time.

Change the trajectory of health plans costs with Vālenz[®] Health.

We're driving a fundamental shift in how self-insured employers look at stop loss insurance - not as a commodity, but as the foundation of lowering year-over-year plan costs. Here's how: Valenz leverages the cost reduction value of our fully integrated Healthcare Ecosystem Optimization Platform and engages early to assess financial risk and capture more optimal stop loss ratings. To further mitigate risk and meet fiduciary responsibilities, our V-Rated Solution delivers the next level of smarter, better, faster healthcare.

Flatten the trajectory of your health plan costs while everyone else's costs keep climbing.
